-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**Status**

- 1) ☒ Responsive to communication(s) filed on 20 October 2004.
- 2a) ☐ This action is **FINAL**. 2b) ☒ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

**Disposition of Claims**

## **DETAILED ACTION**

### ***Election/Restrictions***

1. Applicant's election with traverse of Group I, claims 1-6, in the reply filed on October 20, 2004 is acknowledged. The traversal is on the ground(s) that the grounds for restriction requirement have not properly been presented. This is not found persuasive because the "computer implemented" claim 1 language appears in the preamble of the claim and not the body of the claim language. As is, in broad scope and content the Group I claims may be practiced by hand, including claim 6. Further, taxpayer intervention may be required for the Group II series of claims. This is not required from Group I. This would constitute a separate species.

Applicant is correct with regards to the Group II and Group III labels, e.g. process/product, being mislabeled. The Examiner regrets this inadvertent error. Nonetheless, Group I does not require all the particulars listed from identified Group III, e.g. without taxpayer intervention. Thus, even if Group III is placed with Group II, i.e. claims 7-9, the Group III claims would be subject to a species requirement in a similar fashion as the Group II claims.

Regarding Group IV, i.e. claim 14, Applicant is directed towards paragraph 5 of the previous Office Action. Applicant has apparently inadvertently not addressed this when commenting that Group II and Group IV were not discussed. Regarding Group III and Group IV, the same logic is applied as between Groups II and IV. Thus, the computer program may be used with a separate system, e.g. animation of various data sets in a system.

The requirement is still deemed proper and is therefore made FINAL.

2. Claims 7-14 are withdrawn from further consideration pursuant to 37 CFR 1.142(b), as being drawn to a nonelected invention/species, there being no allowable generic or linking claim. Applicant timely traversed the restriction (election) requirement in the reply filed on October 20, 2004.

3. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

***Claim Rejections - 35 USC § 101***

4. 35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

5. Claims 1-6 are rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter. No technology is present in the body of the claim language. With regards to claim 6, the term electronically, in broad scope and

content does not mean the Internet or computer or facsimile. Thus, by hand, may incorporate the transfer of electrons and fully meet, in broad scope and content, Applicant's claim language.

***Claim Rejections - 35 USC § 102***

6. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

7. Claims 1-6 are rejected under 35 U.S.C. 102(a) as being anticipated by Miller et al., US 6,202,052.

Miller discloses an automated method for preparing tax returns comprising obtaining identification (ID) data and using the ID to determine tax data about a taxpayer associated with the taxpayer's employers or providers, e.g. see cols. 4-6.

8. Further pertinent references of interest are noted on the attached PTO-1449.

9. Applicant' three separate Information Disclosure Statements (IDS's) have been reviewed. Note attached IDS's.
